All Directors are aware of their collective and individual responsibilities to the Shareholders and have exercised their duties with care, skill and diligence, in pursuit of the development of the Group. Every newly appointed Director receives a comprehensive, formal and tailored induction to ensure that he has a proper understanding of the business and operations of the Group and that he is fully aware of his duties and responsibilities as a director under applicable rules and requirements. Directors are updated on any developments or changes affecting their obligations from time to time.

Chairman and Chief Executive Officer

To ensure a balance of power and authority, the roles of the Chairman and the Chief Executive Officer are segregated and performed by Mr. Li Ning and Mr. Zhang Zhi Yong, respectively. There is a clear distinction between the Chairman's responsibility for providing leadership for the Board and the Chief Executive Officer's responsibility for managing the day-to-day operations of the Group's business.

Non-executive Directors and Independent Non-executive Directors

Non-executive Directors and independent non-executive Directors play an important check-and-balance role to safeguard the interests of the Company and the Shareholders as a whole, and will take the lead when potential conflicts of interests arise. The incumbent non-executive and independent non-executive Directors have extensive professional experience and have participated in the meetings of the Board in a conscientious and responsible manner. They serve actively on the Board and its committees to provide their independent and objective

views, in particular, on issues of strategy, policy, performance, accountability, resources, key appointments and standards of conduct and to promote critical review and control.

In compliance with Rule 3.10(1) of the Listing Rules, the Company has appointed three independent non-executive Directors. One of the independent non-executive Directors has the appropriate qualifications in accounting or related financial management expertise as required by Rule 3.10(2) of the Listing Rules. While delegating authority and responsibility for implementing business strategies and managing the day-to-day operations of the Group's business to the management, the Board is collectively responsible for formulating the strategic business direction of the Group and setting objectives for the management, overseeing its performance and assessing the effectiveness of management strategies. The Board reviews the operating performance against agreed targets and budgets on a

regular basis and also exercises a number of reserved powers, including:

- formulating long-term objectives and strategies;
- approving strategic, operational and financial plans;
- monitoring and controlling the Group’s operational and financial performance;
- approving financial statements and public announcements;
- setting the dividend policy; and
- carrying out major acquisitions and disposals, formation of joint ventures and capital transactions.

Responsibilities for Accounts

The Directors are responsible for preparation of the financial statements of the Group for each financial year and ensuring that these financial statements give a true and fair view of the state of affairs of the Group, its results and cash flows for that period. The Directors are also responsible for ensuring that proper accounting records which disclose the financial position of the Group are kept at all times.

Board Meetings

The Board holds at least four regular Board meetings a year at approximately quarterly intervals and additional Board meetings are held as and when necessary. Regular Board meetings are scheduled a year ahead to facilitate maximum attendance by the Directors. The meeting agenda is set after consulting with members of the Board so that all Directors have the opportunity to include matters in the agenda. The agenda and accompanying papers are normally sent to the Directors one week before the date of the meeting.

Directors can at any time request relevant information in their role as Directors. The management provides comprehensive reports on the Group’s business progress, financial objectives, strategic and development plans to the Directors to enable them to make informed decisions on matters submitted for their approval at the Board meetings. The Board arranges, where appropriate, relevant members of the senior management to attend their meetings and report the latest situation about operations and respond to queries from the Directors.

Directors are required to declare their direct or indirect interests, if any, in any matter to be considered at Board meetings and interested Directors are required to abstain from voting and will not be counted in the quorum present in the Board meetings.

The Board held five meetings in 2010 and the attendance record of the Directors is set out below:

A new Director appointed by the Board is subject to election by the Shareholders at the first general meeting after his or her appointment.

Directors' and Officers' Liability Insurance

The Company has arranged for appropriate insurance cover in respect of possible legal actions against its Directors and officers. The scope of coverage of the insurance is subject to review annually.

Board Committees

The Board is supported by a number of committees, including the Executive Committee, the Nomination Committee, the Remuneration Committee and the Audit Committee. Each Committee has its defined and written terms of reference approved by the Board covering its duties, powers and

functions. The Committees are provided with sufficient internal and external resources to discharge their duties. The Nomination Committee adopts the recommended terms of reference set out in the Corporate Governance Code as its terms of reference which are available on the Company's websites. Its primary role is to evaluate the structure, size and composition of the Board, to make recommendations to the Board on the appointment and succession planning for Directors based on certain criteria adopted by the Committee, including appropriate skills, knowledge and industry experience, personal ethics and integrity and time commitment to the Board's affairs. The Nomination Committee normally engages professional recruitment consultants in discharge of its duties. Candidates who satisfy the criteria are short-listed and met by the Nomination Committee before the final candidate is nominated to the Board for consideration. The process ensures that the Board comprises a sufficient number of Directors and consists of Directors having sound knowledge, experience

and/or expertise pertaining to the business operations and development of the Group. The Nomination Committee considers the current structure, size and composition of the Board suitable for directing the Group's development and made no recommendations to the Board on any proposed changes during the year.

The Nomination Committee met twice in 2010 to review and discuss the competency model of the core management team to match with the Company's development strategy needs, which serves as a guidance for the work of the management. INTERNAL CONTROL

The Board has the responsibility to ensure that the Group's internal control system is sound and effective to safeguard the Shareholders' investment and the Company's assets. Accordingly, the Board has always attached great importance to internal control and offered support thereto.

In 2010, the Group further strengthened its internal control in various operational, financial and compliance aspects.

Internal Control System

Based on the experience in operation control over the years, the Company has put in place an integrated system of internal control. The system adopts the globally recognised framework outlined by the Committee of Sponsoring Organisations of the Treadway Commission ("COSO"), with the Group's business, operational and financial risks, corporate culture and management philosophy being taken into account. The system is designed to achieve (i) effectiveness and efficiency of operations; (ii) enhancement of reliability of internal and external financial reporting; and (iii) compliance with applicable laws and regulations. The system serves to provide reasonable, but not absolute, assurance against material misstatement, fraud or loss.

During the year, the Group continued to improve its internal control system aiming at providing effective control and forceful support, which are reflected mainly in the following aspects:

- (1) Continuing to drive the normal operation of the organisational structure of internal control set up on the basis of the COSO internal control framework depicted as follows:

The Company has established a top-down organisational and management structure with clear-cut responsibilities and authorities for internal control purposes, embracing three levels which are responsible for ultimate accountability, supervision and implementation, respectively: (i) the Board has the ultimate accountability and authority in internal control management. It is externally accountable to the Shareholders for corporate governance responsibility, whereas internally it acts as the highest authority to foster internal control; (ii) the Audit Committee is responsible for supervising the establishment and operation of the internal control

system by the management, monitoring the Group's internal control procedures and advising the Board on the effectiveness thereof. Preliminary assessment on the effectiveness of internal control is conducted by the Internal Audit Department which reports directly to the Audit Committee; (iii) the implementation level comprises a decision-making group (which is an executive team led by the Chief Executive Officer and the Chief Financial Officer being responsible for the daily internal control management), a coordination body (namely, the Internal Control Team, which is responsible for supporting the planning and establishment of the Group's internal control system, coordinating the promotion and implementation of the internal control structures in different systems, and organising examination on the effectiveness of the internal control and assessment of risks) and operational level (which are the units being responsible for execution of the internal control, including various operational and functional divisions and departments that are accountable to the establishment, enhancement and effectiveness of the internal control system).

During the year, in light of the changes of the Company's organisational structure, staff and business flow, the staff organisation under the internal control organisational structure was promptly updated and necessary training was carried out by the Company. The Internal Control Team convened regular internal control work meetings and reported in every meeting of the Audit Committee in relation to the Group's internal control work plans and progress for the supervision and guidance of the Audit Committee and the Board.

- (2) Possession of effective and forward-looking strategic management and operation management information and financial and accounting management systems to support the supervision of implementation and performance of business strategies and plans. Timely and regular

operational and financial reports are submitted to and reviewed by the senior management, the Board or its designated committees. This allows them to monitor and control situations against the established annual operating and financial targets and to consider necessary actions as well as to ensure such actions being carried out promptly to remedy any significant failures or weaknesses.

- (3) Ongoing implementation of the Internal Control Manual of Li Ning Company Limited (the “Internal Control Manual”), which represents the codification of the Group’s existing internal control policies and operational procedures to enhance its internal control system. The Internal Control Manual currently covers areas comprising the management procedures in respect of sales and trade receivables, procurement and trade payables, inventories, capital, financial reporting, taxation, management functions of the Group, administration and human resources, intellectual property rights, export and fixed assets. The Internal Control Manual is updated at least once a year, depending on the needs for business changes and procedural refinement, so as to further improve and monitor the effectiveness of the internal control system on a continuing basis. With the arrangement and coordination of the Internal Control Team, 72 key items of internal control and the detailed corresponding control procedures of the Internal Control Manual were updated by relevant departments during the year 2010, with such updated procedures implemented during the year.
- (4) Establishment of an effective annual self-assessment and evaluation mechanism under the internal control framework, with satisfactory results and attaining the following goals:
- (i) fostering middle and senior management to review and comment whether control targets on corporate level can be achieved, and to identify inadequacy and make improvement in a timely manner;
 - (ii) prompting the persons in charge of business processes to actively conduct process review on process level, test the design and execution effectiveness, identify problems in a timely manner and formulate improvement measures; and
 - (iii) assisting the Audit Committee and the Board in assessing the effectiveness of the Company’s internal control system as a whole.
- (5) Independent reviews of risks associated with and internal control on key operations and financial and compliance functions are performed by the Internal Audit Department. Significant issues, if any, together with recommendations for improvement, are reported to the Audit Committee or the Board.
- (6) During the year, in order to support rapid and healthy development of the Group in terms of business diversification and internationalisation, based on the “Risk Management Manual of Li Ning Company Limited (Trial)” which was published in 2009 for the guidance of risk management mechanism of the Company, the Company conducted annual risk review on a corporate level and implemented risk management controls to key business concerns for supporting the daily operational management of key businesses and promoting the extension of the existing internal control to risk management regime.

The Company pays much attention to the internal promotion on implementation of internal control and risk management. Internal control and risk management awareness was raised among the Company in various manners such as training programmes, regular briefing sessions and posters. An in-house newsletter “Risk Management Developments” (風險管理動態) is issued regularly to share with management staff material internal control and risk-related events in the external environment and draws their attention to internal control and risk management.

Annual Review

The Board is fully aware of its accountability in respect of the Group's internal control system and its responsibility for reviewing the effectiveness of the system. The enhancement of internal control is a continuous process and needs to be responsive and remain relevant over time in the continuously evolving business environment. The Group's internal control system is therefore subject to continuous review and improvement to enable the Group to have appropriate responses to any changing risks faced by the Group.

A comprehensive review on the effectiveness of the Group's internal control system is conducted annually, covering all material controls including financial, operational and compliance controls and risk management functions. The review is performed internally on a self-assessment approach (CSA) with a complete set of reporting forms. Persons in-charge of each division and department are requested to fill in the self-assessment review questionnaire against key items of internal control. In 2010, the Company continued to improve methods for self-assessment, which included simplifying questionnaires, use of information technology systems to complete the questionnaires and increasing the number of interviews. The self-assessment covered more than 70 divisions or departments based on the Company's organisational restructuring and business expansion. In addition, members of senior management were required to assess the effectiveness of the internal control system against the elements outlined by the COSO internal control system, including control environment, risk assessment, information and communication, and control. The review process has enabled the persons-in-charge to verify whether the internal control system is working as intended, to identify failures or weaknesses and to take relevant remedial actions. The Internal Audit Department also carried out independent examination and analysis on the reviewing process and the results. Based on the results, the Chief Executive Officer and the Chief Financial Officer submitted a declaration to the Audit Committee and the Board, certifying the adequacy and effectiveness of the Group's internal control system.

The results of the review conducted for the year ended 31 December 2010 have been reported to the Audit Committee and the Board. According to the results, the Audit Committee and the Board confirms that the systems and procedures of the Group's internal control are in good order and are able to identify, control and report on significant risks involved in achieving the Group's strategic objectives. Improvement areas of the systems and procedures have been identified and remedial actions have either been taken or designated to be taken. No material weaknesses have been identified so far and there were no significant areas of concern which may affect the Shareholders.

The Audit Committee and the Board also received the annual review results with regard to the adequacy of resources, qualifications and experience of the Group's accounting and financial reporting staff, and their training programmes and budget. In accordance with such results, the Audit Committee and the Board are of the view that the Group has an adequate number of accounting and financial reporting staff, with the necessary professional qualification and practicing experience to effectively perform their respective functions, and there have been sufficient training programmes and related budget for the staff.

The Board considers that the Group's internal control system is adequate and effective and the Company has complied with the code provisions in respect of internal control under the Corporate Governance Code for the year ended 31 December 2010.

The Internal Audit Department has been established soon after the Company's listing on the Hong Kong Stock Exchange in 2004. The main functions of the Internal Audit Department are reviewing operational and financial conditions of the Group free from restrictions, so as to disclose potential risks, and to follow up with related remedial measures, with a view to continue to enhance operation effectiveness and efficiency of the Group. The Internal Audit Department plays an important role in the

Group's internal control and risk management framework with an aim to providing objective assurance to the Audit Committee and the Board that a sound internal control system and risk management system is maintained and operated and that the risks associated with the achievement of business objectives are being managed properly and circumvented. The Internal Audit Department reports directly to the Chief Financial Officer and can refer matters to the Audit Committee directly. The Internal Audit Department also collaborates with the external auditor where appropriate.

The Internal Audit Department formulates the internal audit plan every year in accordance with the Group's strategic goals and risk assessment results, and engages in related tasks with the approval and support of the Audit Committee. The tasks of the Internal Audit Department include (i) regular audit and evaluation of the operational effectiveness and efficiency of various business and functional systems; and (ii) special audits in various concerned areas designated by the management and the Audit Committee based on the assessment of risks. In the year 2010, the Internal Audit Department conducted audits on the product system, sales system, supply chain management system, retail subsidiaries and finance system of LI-NING brand, as well as on new business areas, including Double Happiness, Lotto, Kason and international markets, and submitted the relevant audit reports to the Audit Committee, Chief Executive Officer and Chief Financial Officer.

For material audit findings and risk factors, the Internal Audit Department will notify the Audit Committee and the management of such risks in a timely manner, and will regularly follow up with the improvement progress. As at 31 December 2010, various audit findings and risk factors had been or were being properly handled by the management, and there were no material irreparable audit findings and risk factors. Based on the risk assessment and the Group's strategic focus, the Internal Audit Department has planned to carry out audits focusing on brand, sales channels (including various regions and retail subsidiaries), supply chain, human resources, information technology system and new businesses in 2011.

The Internal Audit Department also plays an important role in the realm of internal control and risk management system and is responsible for reviewing and assessing the adequacy and compliance level of the Group's internal control system and risk management system and providing an independent and objective opinion on the effectiveness of the systems. In 2010, the Internal Audit Department participated in certain parts of the relevant work on reviewing the risk management system and internal control, and also conducted audits on the implementation of the risk management review of sales channels and the internal control review of the information technology system.

Shareholders' meetings provide a principal channel of direct communication between the Company and the Shareholders. They provide an opportunity for Shareholders to better understand the Group's operation, financial performance, business strategies and outlook.

The Company has adopted poll voting in its Shareholders' meetings since listing in 2004 before poll voting was made mandatory for all general meetings effective from 1 January 2009 under the Listing Rules. All resolutions put forward at any Shareholders' meeting are voted by poll so that each Share is entitled to one vote. The procedures for demanding and conducting a poll are included in the circular to the Shareholders accompanying the notice of the meeting and are explained at the beginning of the meeting.

The last annual general meeting, which was also the last Shareholders' meeting of the Company, was held on 14 May 2010. To encourage Shareholders to attend the meeting, more than 20 clear business days' notice and a circular containing necessary information were given to Shareholders so as to enable them to make informed decisions on the resolutions proposed to be considered in the meeting. A majority of the Directors, including all executive Directors, a non-executive Director and all independent non-executive Directors, and the Company's external auditor were present at the meeting. A question and answer session was available for Shareholders to raise questions.

At the last annual general meeting, separate resolutions were proposed for the following businesses and were voted by poll:

- adopting the audited financial statements for the year ended 31 December 2009;
- declaration of final dividend;
- re-election of three Directors and authorisation to the Board to fix the remuneration of the Directors;
- re-appointment of auditor and the authorisation to the Directors to fix their remuneration; and
- providing Directors with general mandates to repurchase and issue and allot shares of the Company subject to the relevant limits under the Listing Rules.

All the resolutions proposed at the last annual general meeting were approved by Shareholders. The poll was scrutinised by the Company's Hong Kong branch share registrar in the meeting. Details of the poll results were declared at the meeting and the poll results announcement made pursuant to the Listing Rules was published on the same day of the meeting.

No extraordinary general meeting was held during the year. The next annual general meeting of Shareholders will be held on 13 May 2011. Details of the meeting and necessary information on issues to be considered in the meeting are set out in the circular dispatched to the Shareholders together with the Company's annual report 2010.
